Re: Digital Safety for Parents

Dear Parents and Carers,

We are celebrating internet safety next week at Bells Farm and we would like you to join us for a digital safety workshop.

To celebrate the many positives of the internet, and to raise awareness of the issues that children and young people face online today, we will be hosting the digital safety workshop for parents and carers of children in every year group and we will be delivering this presentation. The session will provide practical advice and safety tips to help manage online safety issues, and discussions surrounding suitable behaviour online.

The session will be on **Wednesday 11th February 2015 at 3.15pm** and will last for one hour. If children are with you, they will be allowed to watch the session or be able to use a netbook or iPad to keep them occupied. Please note there will be no crèche available so will be unsuitable for toddlers.

We believe that internet safety education is a crucial element of the curriculum and an essential part of young people's development. This session is designed to help you become more aware of the safety messages that your children receive in school in order to reinforce them in your home environment.

We really hope that you will be able to attend and look forward to seeing you there.

Yours sincerely

Mr Baddhan
ICT Operations Manager
